OBJECTIVE

Third-year software engineering student that has strong foundation in procedural and object-oriented programming, database management, and network protocols.Experienced in full-cycle academic project development and eager to leverage technical skills in challenging software engineering and cyber security environments.

EDUCATION

Bachelor of Science in Software Engineering | 2024 - Expected graduation 2029

Addis Ababa Science and Technology University(AASTU),Addis Ababa

- Relevant Coursework: Fundamentals of Programming(C++),Database Systems(MySQL,ERD Modeling),Data Communication and Computer Networks(Multiple Access Protocols)
- CGPA:3.66(First year,two semesters)

TECHNICAL SKILLS

- C++–,data structures,and logic control
- **Java**- object-oriented programming
- MySQL–Database integration,schema design, and query optimization
- Tools & Methodologies–Git/GitHub, Draw.io(Entity-Relationship Diagrams),VSCode, Dev - C++
- Familiarity with core programming concepts:Network protocols(CSMA/CD,ALOHA),software architecture, modular code structuring, and data architecture

SOFT SKILLS

- Collaborative Teamwork –Provenability to work efffectively in peer-programming environments, coordinating tasks smoothly with development partners to integrate front end logic with database systems.
- TechnicalCommunication–Skill date explaining complex code logic,database structures,and system designs clearlyto both technical teammates and no-technical stakeholders during project presentations.
- AnalyticalProblem-Solving–A structured, logical mind set focused on breaking down complex problems, debugging intricate system behaviors, and optimizing technical work flows.
- Adaptability & ContinuousLearning–A fast learner capable of rapidly picking up new technologies, frame work architectures, and development tools outside of the standard curriculum.
    - Time Management & Reliability–Strong organizational skills with track record of balancing rigorous academic course work, collaborative project deadlines,and intensive technical program applications.

EXTRACURRICULAR ACTIVITIES ANDPARTICIPATION

- GitHub Collaborator–Actively managing and contributing to shared technical repositories for academic and independent team projects.
- **Google Developers Group(GDG)** Certified participant.

PERSONAL STRENGTHS

- Strong analytical skills with a focus on data architecture and logic
- Highly collaborative team member with proven peer-project experience
- Able to work both independently and in team environments
- Excellent technical communication and problem-solving abilities
